

Dear Valued Customer,

We're growing! As a result, sister companies SQS, Inc. and Environmental Recycling have joined under a new name that more accurately describes the depth and breadth of services that our companies provide to our customers. Accordingly, effective July of 2007, the companies will collectively be known as the Environmental Recycling Group (ERG).

**Environmental
Recycling Group™**

Comprehensive Environmental Management Services

Along with a new name and logo we have relocated the SQS, Inc. facilities to Livonia, Michigan, which will now serve as the Corporate Headquarters for the Environmental Recycling Group. On the reverse of this letter you will find a detailed listing of our former and new company information.

Over the past several years the companies of the Environmental Recycling Group have worked diligently to enhance and expand our services in the areas of:

**Waste Management
Site Investigation & Remediation
Engineering & Design
Zero Landfill Products & Services**

**Post-Industrial Materials Reclamation
Environmental Training & Compliance
Industrial Services
Household Hazardous Waste**

This growth has been in response to the needs of our customers and the ever-changing environmental and industrial fields. Further, this growth would not have been possible without the faith and loyalty that you, our customers, have entrusted to us.

As always, the management team and staff of Environmental Recycling Group look forward to solving your environmental management challenges.

Sincerely,

Environmental Recycling Group

A handwritten signature in black ink, appearing to read "Michael Dolkowski", written over a light blue circular stamp.

Michael Dolkowski
President
